

AAMI Level 2 Protective Isolation Gown

**Proudly
Manufactured
in Minnesota**

FDA Registered Medical Devices Establishment

Your first line of defense!

PROTECTIVE

Protective Isolation Gown is constructed of durable, moisture-proof vinyl that provides an air and liquid barrier and is designed for use in patient screening, specimen collection, lab, triage, urgent care, routine office care, lobby, security, foodservice, food manufacturing and similar settings. Thumb holes on long sleeves secure the gown to prevent gown from riding up and exposing arms.

COMFORT

Protective Isolation Gown ties in back to adjust as needed for a comfortable and secure fit.

REUSABLE

Protective Isolation Gown can be cleaned, sanitized and reused.

CONSTRUCTION

- Durable, moisture-proof and reusable vinyl
- Single piece, pullover style with full sleeves that are seamed/sealed in a non-critical area for FDA Class 1 usage.
- Long sleeves for full coverage
- Thumb holes to secure sleeves under gloves
- Built in straps secure gown around waist
- Meets or exceeds California's Proposition 65
- Vinyl Color could vary within an order.

ORDER INFORMATION

- Bulk packaged in clear polybag inside case.
- 50 Units Per Case. Sold in full cases only.
