

Preserve-A-Mask™ Face Shield

**Proudly
Manufactured
in Minnesota**

FDA Registered Medical Devices Establishment
QCA Accredited Facility

Your first line of defense!

Preserve valuable medical masks.

Preserve-A-Mask™ Face Shield provides a barrier for medical workers working in environments where there is a risk of exposure to fluids to face or masks.

PROTECTIVE

Preserve-A-Mask™ Face Shield helps to provide face and eye protection as well as preserve the usability of face masks.

COMFORT

Preserve-A-Mask™ Face Shield has three formed brow pads that extend 1" from the forehead with upper vent slots to enhance comfort, increased airflow and maximum visibility by reducing condensation and fog.

REUSABLE

Preserve-A-Mask™ Face Shield can be cleaned, sanitized and reused.

CONSTRUCTION

- Constructed of non-porous PVC, vinyl and nylon
- Design allows room for glasses or goggles
- Shield provides coverage without blocking peripheral vision
- Adjustable tab to securely hold shield in place
